For a further discussion of factors that could cause the actual results to differ, please refer to the section titled ‘**Risk Factors**’ beginning on page 21 of this Letter of Offer. By their nature, certain market risk disclosures are only estimates and could materially be different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated and are not a guarantee of future performance. Our Company or advisors does not have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI and BSE’s requirements, our Company shall ensure that Investors in India are informed of material developments until the time of the grant of listing and trading permission by the Stock Exchange.

SECTION II – RISK FACTORS

An investment in equity shares involves a high degree of risk. Prospective investors should carefully consider all the information in this Letter of Offer, including the risks and uncertainties described below, before making an investment in the Equity Shares.

The risks described in this section are those that we consider to be the most significant and material to our business, financial condition, results of operations, and cash flows as of the date of this Letter of Offer. We have described the risks and uncertainties that we currently believe to be material, but the risks set out in this section may not be exhaustive, and additional risks and uncertainties not presently known to us, or which we currently deem to be immaterial, may arise or may become material in the future. If any or some combination of the following risks, or other risks that are not currently known or believed to be adverse, occur, our business, financial condition, and results of operations could suffer, and the trading price and the value of your investment in, our Equity Shares could decline, and you may lose all or part of your investment. In making an investment decision with respect to this Issue, you must rely on your examination of our Company and the terms of this Issue, including the merits and risks involved. You should consult your tax, financial, and legal advisors about the consequences of an investment in our Equity Shares and its impact on you.

In making an investment decision, prospective investors must rely on their own examinations of us and the terms of the Offer, including the merits and risks involved. Prospective investors should consult their tax, financial and legal advisors about the consequences they could encounter in investing in the Equity Shares.

This Letter of Offer also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from such forward-looking statements because of certain factors, including the considerations described below and elsewhere in this Letter of Offer.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context otherwise requires, in this section, reference to 'we', 'us', and 'our' refers to our Company.

INTERNAL RISK FACTOR

1. Our printing and publication business is subject to several risks relating to availability, pricing and transportation of raw materials.

Our business depends on the steady availability of paper, ink, printing plates and other critical raw materials. Any shortage caused by supply chain disruptions, changes in import policies, factory shutdowns of paper mills, environmental restrictions or logistics challenges could negatively impact our operations. Printing materials are sensitive to environmental regulations, global pulp prices, transportation constraints and currency fluctuations.

Damage in transit, delays, shortages or theft of raw materials can adversely affect fulfilment schedules and increase operating costs. Volatility in raw material prices—especially paper prices—has a direct impact on our profitability. To mitigate these risks, we must maintain efficient supply chain processes, diversify suppliers, ensure adequate stocking and continuously monitor pricing trends. Any significant disruption in supply or unfavourable price movement could have a material adverse effect on our operations and financial performance.

2. Our printing business is subject to seasonality, which may impact our operating results and cash flows.

The printing and publication industry is influenced by seasonal variations, particularly during academic cycles, festive seasons, government tender periods and annual reporting periods. Demand for printing of books, ballots, magazines, promotional materials and packaging materials fluctuates significantly during the year. Such seasonality can lead to uneven cash flows, under-utilisation of capacity in off-seasons and increased working capital requirements during peak seasons. This makes our revenues and profitability unpredictable and may adversely impact financial stability.

3. Seasonal and Agro-Related Business Risk, *The Company's business is partly dependent on the agricultural sector and is therefore subject to seasonal fluctuations arising from crop cycles, monsoon patterns, and harvesting periods. Agricultural output is influenced by factors such as weather conditions, rainfall variability, pest incidence, availability of irrigation, and government policies, including minimum*

support prices and subsidies. Any adverse impact on agricultural production or farmer income may reduce demand for the Company's agro-related products/services, leading to variability in revenues, cash flows, and profitability. Prolonged unfavorable climatic conditions or policy changes could materially and adversely affect the Company's business, financial condition, and results of operations.

4. The agricultural commodity trading business is highly seasonal and such seasonality may affect our operating results and cash flow of our Company.

Our business is seasonal in nature. Both raw material supplies and sales are seasonal, as our business is influenced by the traditional crop seasons in India. In India, majority of the farmers depend on monsoon for cultivation. Rainfall usually occurs during Kharif season and hence, the timing and seasonality of rainfall has an impact on the trading business of our Company. Thus, we are subject to seasonal factors, which make our operational revenue and operational results very unpredictable.

5. We rely heavily on a limited number of key suppliers and customers. Any disruption in supply or off-take may adversely affect our business.

A significant portion of our purchases and sales is concentrated among a few key suppliers and customers. Any disruption in supply of paper, ink or other materials, or the loss of a major customer, could severely affect our business operations. We do not have long-term agreements with these suppliers or customers, which increases our vulnerability. Any deterioration in the financial condition or capacity of our suppliers may impact our ability to meet customer commitments. Failure to deliver materials on time, as per specifications or in required volumes, may lead to loss of customers, penalties or reputational harm, adversely affecting our revenue and profitability.

6. Our operations are geographically concentrated, and any adverse developments in these regions may significantly affect our revenues.

Our key printing operations and major customers are concentrated in specific regions. This geographical concentration exposes us to risks relating to economic slowdowns, labour issues, local regulatory actions, civil unrest, infrastructure disruptions or natural calamities. Any such adverse development could hinder material movement, shut down production, affect customer demand or disrupt logistics. As we expand into new regions, we may face competition from established local players with better regional understanding or superior networks. Failure to expand successfully or diversify geographically could adversely impact our business outlook.

7. Delays or defaults in payment by customers may adversely affect our operations and working capital.

Our business requires significant working capital for procurement of raw materials and execution of printing orders. Delays or defaults in payment by customers can strain our cash flows, limit our ability to purchase materials and disrupt production schedules. Customers may also delay payments due to disputes relating to print quality, quantity variations, delivery delays or internal approval cycles. Persistent delays or defaults could materially affect our liquidity, profitability and financial condition.

8. Adverse publicity relating to our printed products could negatively impact our business.

Any adverse publicity regarding the quality, accuracy, content or safety of our printed materials—including books, packaging materials, or promotional content—could harm our reputation. Misprints, defective outputs, delayed deliveries or printing errors in critical documents (such as ballots or academic materials) can attract negative attention, legal action or customer dissatisfaction. Such incidents may lead to loss of business, reduced customer trust or cancellation of future orders, adversely affecting our revenue and brand value.

9. We face intense competition from organized and unorganized printing service providers, which may impact pricing and profitability.

The printing industry is highly competitive, with several regional, national and unorganized sector players offering similar services at varying price points. Some competitors may have superior technology, larger capacities, better supply chain integration or greater financial strength. The unorganized sector often offers services at lower prices, making pricing pressure a constant challenge. Increased competition may lead to loss of market share, reduced margins and slower business growth. Consolidation in the industry or mergers among competitors may further intensify competitive pressures and adversely affect our business.

10. Any failure to meet quality standards, comply with printing norms or adhere to statutory specifications may result in legal liabilities or reputational damage.

Maintaining strict quality standards is critical in the printing business. Failure to ensure print consistency, colour accuracy, paper quality, binding strength or content correctness can lead to customer disputes, rejections and reputational harm. We must comply with printing norms, copyright regulations, environmental norms for waste disposal, packaging rules and government printing guidelines. Any non-compliance could result in penalties, cancellation of orders, loss of eligibility for government tenders or legal proceedings. Failure to meet such standards may adversely impact customer trust and long-term business prospects.

11. We have entered into related party transactions, and such transactions may potentially involve conflicts of interest.

We have undertaken related party transactions in the past and may continue to do so in the future. Although we believe these transactions are conducted on an arm's-length basis, there is no assurance that more favourable terms could not have been achieved with unrelated parties. Future related party transactions may involve potential conflicts of interest, which could adversely affect our financial performance, cash flows or governance reputation.

12. We require various statutory approvals and licenses for our operations, and failure to obtain, renew or maintain them may impact our business.

Our printing operations require compliance with various statutory and regulatory frameworks, environmental norms, factory licenses, labour law registrations and industry-specific approvals. Regulatory requirements continue to evolve, and there is no assurance that future changes will not adversely impact our operations. Any delay in obtaining or renewing statutory permissions or any non-compliance may lead to penalties, operational disruptions or suspension of business activities. Such uncertainties may adversely affect our business prospects, financial condition and operational continuity.

13. Despite recording profits in recent years, any future losses may adversely impact our financial stability and net worth.

Although Shakti Press Ltd has reported profits in recent years, the printing industry is subject to fluctuations in demand, rising raw material costs, potential bad debts and cyclical nature of customer requirements. There is no assurance that we will maintain profitability in future periods. Any operational losses may result in erosion of net worth, financial stress and challenges in meeting working capital requirements, which could adversely affect our overall financial condition.

14. We are dependent on our Promoters, management team and key personnel, and the loss of any key member may adversely affect our performance.

Our promoters, senior management and key employees play a critical role in strategic planning, client relationships, operations and business growth. Any departure of senior personnel or difficulty in retaining skilled employees may disrupt operations and adversely impact business performance. Skilled professionals in printing technology, design, machine operations and marketing are essential for our growth. Inability to attract or retain such talent may hamper operations and affect our competitiveness.

15. Our business is subject to various laws and regulations, and any non-compliance may materially impact our operations.

We operate in a regulated environment and are required to comply with multiple legal frameworks, including the Companies Act, labour laws, environmental regulations, copyright laws, printing and publishing regulations, data protection norms and packaging standards. Changes in regulatory requirements may require operational adjustments, additional costs or infrastructural changes. Any non-compliance—whether by us or third-party vendors—may result in penalties, legal liabilities, reputational harm or operational disruptions. Compliance demands continuous monitoring and resource allocation, failure of which may adversely impact our business, reputation and financial condition.

ISSUE SPECIFIC FACTORS

16. *Our Company will not distribute the Offer Documents to certain overseas shareholders who have not provided an address in India for service of documents.*

Our Company will dispatch the Offer Documents to such shareholders who have provided an address in India for the service of documents or who are in jurisdictions where the offer and sale of the Rights Equity Shares permitted under laws of such jurisdictions and in each case who make a request in this regard. The Offer Documents will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e-mail. Presently, there is a lack of clarity under the Companies Act, 2013, and the rules thereunder, with respect to the distribution of Issue Materials in overseas jurisdictions where such distribution may be prohibited under applicable laws of such jurisdictions. While we have requested all the shareholders to provide an address in India for the purposes of distribution of Issue Materials, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act and may subject us to fines or penalties.

17. *There is no public market for the Rights Equity Shares or Equity Shares outside India.*

After this Issue, there will continue to be no public market for our Equity Shares in the United States or any country other than India. In addition, the holders of the partly paid-up Rights Equity Shares will not be able to trade in these Equity Shares till they are credited to the holders' account as fully paid-up, and thereafter there will also be no public market for the Rights Equity Shares outside of India. We cannot assure you that the face value of the Rights Equity Shares will correspond to the price at which the Rights Equity Shares will trade subsequent to this Issue. This may also affect the liquidity of our Rights Equity Shares and Equity Shares and restrict your ability to sell them.

18. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for dilution of your percentage ownership of the equity share capital of our Company that may be caused because of the Issue. Renounees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation (the last day for which is May 13, 2026, such Renounee will not be able to apply in this Issue with respect to such Rights Entitlements.

19. *SEBI has recently, by way of Rights Issue Circulars streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Letter of Offer.*

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI Rights Issue Circulars and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see '*Terms of the Issue*' on page 56 of this Letter of Offer.

In accordance with Regulation 77A of the SEBI (ICDR) Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account (namely being Shakti Press Ltd Rights Escrow Demat Account) opened by our Company, for the Eligible Equity Shareholders which would comprise Rights Entitlements relating to:

- Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI (LODR) Regulations; or
- Equity Shares held in the account of IEPF authority; or

- The demat accounts of the Eligible Equity Shareholder which are frozen or suspended for debit or credit or details of which are unavailable with our Company or with the Registrar on the Record Date; or.
- Equity Shares held by Eligible Equity Shareholders holding Equity Shares in the physical form on the Record Date the details of demat accounts are not provided by Eligible Equity Shareholders to our Company or Registrar; or
- Credit of the Rights Entitlements returned/reversed/failed; or
- The ownership of the Equity Shares currently under dispute, including any court proceedings.

20. Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoter or members of our Promoter Group may adversely affect the trading price of the Equity Shares.

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoter and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoter and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

21. Investors shall not have the option to receive Rights Equity Shares in physical form.

In accordance with the provisions of Regulation 77A of the SEBI (ICDR) Regulations read with SEBI Rights Issue Circular, the credit of Rights Entitlement and Allotment of Rights Equity Shares shall be made in dematerialised form only. Investors will not have the option of getting the allotment of Equity Shares in physical form.

22. The Rights Entitlement of Physical Equity Shareholders may lapse in case they fail to furnish the details of their demat account to the Registrar.

In accordance with the SEBI Circular bearing reference number 'SEBI/HO/CFD/DIL2/CIR/P/2020/13 dated January 22, 2020', the credit of Rights Entitlement and Allotment of Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Equity Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Equity Shareholders are requested to furnish the details of their demat account to the Registrar not later than 2 (Two) Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least 1 (One) day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than 2 (Two) Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 03, 2018 issued by the SEBI, with effect from April 01, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares). For further details, please refer to the section titled '*Terms of the Issue*' on page 56 of this Letter of Offer.

23. Our ability to pay dividends in the future will depend on our future earnings, cash flows, working capital requirements, capital expenditures and financial condition. Investors of Rights Equity Shares are only entitled to dividend in proportion to the amount paid up and the voting rights (exercisable on a poll by investors) shall also be proportional to such investor's share of the paid-up Equity Share capital of our Company.

The amount of our future dividend payments, if any, will depend on various factors such as our future earnings, cash flows, financial condition, working capital requirements, capital expenditures and in accordance with applicable laws. We may decide to retain all our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on the Equity Shares. Additionally, in the future, we may be restricted by the terms of our financing agreements in making dividend payments unless otherwise agreed with our lenders. The amounts paid as dividends in the past are not necessarily indicative of our Company's dividend policy or the dividend amounts, if any, in the future. There is no

guarantee that any dividends will be declared or paid or that the amount thereof will not be decreased in the future.

Further, with respect to the present Issue, investors are only entitled to dividend in proportion to the amount paid-up and the voting rights (exercisable on a poll by investors) shall also be proportional to such investor's share of the paid-up Equity Share capital of our Company.

24. *You may not receive the Equity Shares that you subscribe in the Issue until 15 (Fifteen) days after the date on which this Issue closes, which will subject you to market risk.*

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 (Fifteen) days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time, subjecting you to market risk for such period.

25. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

In terms of the SEBI (ICDR) Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political, or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant's decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares.

The Applicants shall not have the right to withdraw their Applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Rights Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

26. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, any Company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

27. *There is no guarantee that our Right Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.*

In accordance with applicable laws and regulations and the requirements of the BSE Limited, in principle and final approvals for listing and trading of the Rights Equity Shares issued pursuant to this Issue will not be applied for or granted until after the Rights Equity Shares have been issued and allotted. Approval for listing and trading will require all the relevant documents authorising the issuance of Rights Equity Shares to be submitted. Accordingly, there could be a delay in listing the Rights Equity Shares on the BSE Limited.

If there is a delay in obtaining such approvals, we may not be able to credit the Rights Equity Shares allotted to the Investors to their depository participant accounts or assure ownership of such Rights Equity Shares by the Investors in any manner promptly after the Issue Closing Date. In any such event, the ownership of the Investors over Rights Equity Shares allotted to them and their ability to dispose of any such Equity Shares may be restricted. For further information on issue procedure, please refer to the section titled '*Terms of the Issue*' beginning on page 56 of this Letter of Offer.

28. *No market for the Right Entitlements may develop and the price of the Right Entitlements may be volatile.*

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchanges during the Renunciation Period or that there will be sufficient liquidity in Rights Entitlements trading during this period. The trading price of the Rights Entitlements will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also on the quoted price of the Equity Shares, amongst others. Factors affecting the volatility of the price of the Equity Shares, as described herein, may magnify the volatility of the trading price of the Rights Entitlements, and a decline in the price of the Equity Shares will have an adverse impact on the trading price of the Rights Entitlements. Since the trading of the Rights Equity Shares will be on a separate segment compared to the Equity Shares on the floor of the Stock Exchanges, the trading of Rights Equity Shares may not track the trading of Equity Shares. The trading price of the Rights Entitlements may be subject to greater price fluctuations than that of the Equity Shares.

We will not distribute the Issue Materials to overseas Shareholders who have not provided an address in India for service of documents. We will dispatch the Issue Materials to the shareholders who have provided an address in India for service of documents. The Issue Materials will not be distributed to addresses outside India on account of restrictions that apply to circulation of such materials in overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e-mail. Presently, there is lack of clarity under the Companies Act and the rules made thereunder with respect to distribution of Issue Materials in overseas jurisdiction where such distribution may be prohibited under the applicable laws of such jurisdictions. While we have requested all the shareholders to provide an address in India for the purposes of distribution of Issue Materials, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act and may subject us to fines or penalties.

29. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.*

On listing, our Equity Shares will be quoted in Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

30. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a Company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian Company than as shareholder of a corporation in another jurisdiction.

31. *SEBI operates an index-based market-wide circuit breaker. Any operation of a circuit breaker may adversely affect a shareholder's ability to sell, or the price at which it can sell, our Equity Shares at a particular point in time.*

We are subject to an index-based market-wide circuit breaker generally imposed by SEBI on Indian stock exchanges. This may be triggered by an extremely high degree of volatility in the market activity (among other things). Due to the existence of this circuit breaker, there can be no assurance that shareholders will be able to sell our Equity Shares at their preferred price or at all at any particular point in time.

32. *Investors in the Rights Equity Shares may not be able to enforce a judgment of a foreign court against us or our management, except by way of a suit in India on such judgment.*

We are a limited liability company incorporated under the laws of India and majority of our directors and all executive officers are residents of India. It may be difficult for the investors to affect service of process upon us or such persons outside India or to enforce judgments obtained in courts outside India.

India has reciprocal recognition and enforcement of judgments in civil and commercial matters with only a limited number of jurisdictions, which includes the United Kingdom, Singapore, Hong Kong, and the United Arab Emirates. In order to be enforceable, a judgment from a jurisdiction with reciprocity must meet certain requirements of the Code of Civil Procedure, 1908. Judgments or decrees from jurisdictions, which do not have reciprocal recognition with India, cannot be executed in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether predicated solely upon the general laws of the non-reciprocating territory, would not be enforceable in India. Even if an investor obtained a judgment in such a jurisdiction against us or our officers or directors, it may be required to institute a new proceeding in India and obtain a decree from an Indian court. However, the party in whose favour such final judgment is rendered may bring a new suit in a competent court in India based on a final judgment that has been obtained in a non-reciprocating territory within 3 (Three) years of obtaining such final judgment in the same manner as any other suit filed to enforce a civil liability in India. If, and to the extent that, an Indian court were of the opinion that fairness and good faith so required, it would, under current practice, give binding effect to the final judgment that had been rendered in the non-reciprocating territory, unless such a judgment contravenes principles of public policy in India. It is unlikely that an Indian court would award damages on the same basis or to the same extent as was awarded in a final judgment rendered by a court in another jurisdiction if the Indian court believed that the amount of damages awarded was excessive or inconsistent with Indian practice. In addition, any person seeking to enforce a foreign judgment in India is required to obtain prior approval of the RBI to repatriate any amount recovered pursuant to the execution of such a judgment.

33. *If our Company does not receive the minimum subscription of 90% of the total Issue Size, the Issue may fail.*

The Minimum subscription, this is to submit that the objects of the Issue are meeting the Working Capital Requirements, However, promoter of the company will not subscribe fully to their portion of right entitlement. Accordingly, in terms of Regulation 86 of the SEBI ICDR Regulations, our Company would require to achieve minimum subscription of at least 90% of the issue.

In the event our Company does not receive the minimum subscription of 90% of the total Issue Size or the subscription level falls below 90% of the total Issue Size after the Issue Closing Date on account of withdrawal of Applications or technical rejections or any other reason, our Company shall refund the entire subscription amount received within such period as may be prescribed under applicable law. Further, in the event, there is delay in making a refund of the subscription monies, our Company shall be required to pay interest for the delayed period at such a rate prescribed under applicable law.

EXTERNAL RISK FACTORS:

34. *The outbreak of Novel Coronavirus, or outbreak of any other severe communicable disease could have a potential impact on our business, financial condition, and results of operations.*

The outbreak, or threatened outbreak, of any severe epidemic caused due to viruses (particularly the Novel Coronavirus) could materially adversely affect overall business sentiment and environment, particularly if such outbreak is inadequately controlled. The spread of any severe communicable disease may also adversely affect the operations of our customers and suppliers, which could adversely affect our business, financial condition and results of operations. The outbreak of Novel Coronavirus has resulted in authorities implementing several measures such as travel bans and restrictions, quarantines, shelter in place orders, and shutdowns. These measures have impacted and may further impact our workforce and operations, the

operations of our customers, and those of our respective vendors and suppliers. There is currently substantial medical uncertainty regarding Novel Coronavirus. A rapid increase in severe cases and deaths where measures taken by governments fail or are lifted prematurely, may cause significant economic disruption in India and in the rest of the world. The scope, duration and frequency of such measures and the adverse effects of Novel Coronavirus remain uncertain and could be severe. Our ability to meet our ongoing disclosure obligations might be adversely affected, despite our best efforts. If any of our employees were suspected of contracting Novel Coronavirus or any other epidemic disease, this could require us to quarantine some or all of these employees or disinfect the facilities used for our operations. In addition, our revenue and profitability could be impacted to the extent that a natural disaster, health epidemic or other outbreak harms the Indian and global economy in general. The outbreak has significantly increased economic uncertainty. It is likely that the current outbreak or continued spread of Novel Coronavirus will cause an economic slowdown and it is possible that it could cause a global recession. The spread of Novel Coronavirus has caused us to modify our business practices (including employee travel, employee work locations, and cancellation of physical participation in meetings, events and conferences), and we may take further actions as may be required by government authorities or that we determine are in the best interests of our employees, customers, partners, and suppliers. There is no certainty that such measures will be sufficient to mitigate the risks posed by the outbreak, and our ability to perform critical functions could be harmed. The extent to which the Novel Coronavirus further impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions taken globally to contain the coronavirus or treat its impact, among others. Existing insurance coverage may not provide protection for all costs that may arise from all such possible events. We are still assessing our business operations and system supports and the impact Novel Coronavirus may have on our results and financial condition, but there can be no assurance that this analysis will enable us to avoid part or all of any impact from the spread of Novel Coronavirus or its consequences, including downturns in business sentiment generally or in our sector in particular. The degree to which Novel Coronavirus impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including, but not limited to, the duration and spread of the outbreak, its severity, the actions taken to contain the outbreak or treat its impact, and how quickly and to what extent normal economic and operating conditions can resume. The above risks can threaten the safe operation of our facilities and cause disruption of operational activities, environmental harm, and loss of life, injuries and impact the wellbeing of our people. Further in case the lockdown is extended, it could result in muted economic growth or give rise to a recessionary economic scenario, in India and globally, which could adversely affect the business, prospects, results of operations and financial condition of our Company.

35. *Significant differences exist between Ind AS, Indian GAAP and other accounting principles, such as US GAAP and International Financial Reporting Standards ('IFRS'), which investors may be more familiar with and consider material to their assessment of our financial condition.*

The Financial Statements of our Company for the Financial Year ending March 31, 2024, March 31, 2023 and unaudited limited review for the six months ended on September 30, 2025 have been prepared in accordance with the Ind AS, the Companies Act, 2013.

We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Letter of Offer, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. US GAAP and IFRS differ in significant respects from Ind AS and Indian GAAP. Accordingly, the degree to which the Financial Information included in this Letter of Offer will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS, Indian GAAP and the SEBI (ICDR) Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Letter of Offer should accordingly be limited.

36. *Political, economic, or other factors that are beyond our control may have adversely affect our business and results of operations.*

The Indian economy is influenced by economic developments in other countries. These factors could depress economic activity which could have an adverse effect on our business, financial condition, and results of operations. Any financial disruption could have an adverse effect on our business and future financial performance. We are dependent on domestic, regional, and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in

the economic growth of India. Demand for our services may be adversely affected by an economic downturn in domestic, regional, and global economies. Economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, and volatility in exchange currency rates, and annual rainfall which affects agricultural production. Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

37. *A slowdown in economic growth in India could cause our business to suffer.*

We are incorporated in India, and all of our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. A slowdown in the Indian economy could adversely affect our business, including our ability to grow our assets, the quality of our assets, and our ability to implement our strategy. Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- Any increase in Indian interest rates or inflation;
- Any scarcity of credit or other financing in India;
- Prevailing income conditions among Indian consumers and Indian corporations;
- Changes in India's tax, trade, fiscal or monetary policies;
- Political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- Prevailing regional or global economic conditions; and
- Other significant regulatory or economic developments in or affecting India.

Any slowdown in the Indian economy or in the growth of the sectors we participate in or future volatility in global commodity prices could adversely affect our borrowers and contractual counterparties. This in turn could adversely affect our business and financial performance and the price of our Equity Shares.

38. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, prospects, and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. The Government of India has issued a notification dated September 29, 2016, notifying Income Computation and Disclosure Standards (hereinafter referred to as 'ICDS'), thereby creating a new framework for the computation of taxable income. The ICDS became applicable from the assessment year for Fiscal 2018 and subsequent years. The adoption of ICDS is expected to significantly alter the way companies compute their taxable income, as ICDS deviates from several concepts that are followed under general accounting standards, including Indian GAAP and Ind AS. In addition, ICDS shall be applicable for the computation of income for tax purposes but shall not be applicable for the computation of income for minimum alternate tax. There can be no assurance that the adoption of ICDS will not adversely affect our business, results of operations and financial condition. The General Anti Avoidance Rules (hereinafter referred to as 'GAAR') have been made effective from April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to our Company, it may have an adverse tax impact on us. A comprehensive national GST regime that combines taxes and levies by the Central and State Governments into a unified rate structure, which came into effect from July 1, 2017. We cannot provide any assurance as to any aspect of the tax regime following implementation of the GST. Any future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. If, as a result of a particular tax risk materializing, the tax costs associated with certain transactions are greater than anticipated, it could affect the profitability of such transactions. In addition, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs and other burdens

relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future. Any increase in taxes and levies, or the imposition of new taxes and levies in the future, could increase the cost of production and operating expenses. Taxes and other levies imposed by the central or state governments in India that affect our industry include customs duties, excise duties, sales tax, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. The central and state tax scheme in India is extensive and subject to change from time to time. Any adverse changes in any of the taxes levied by the central or state governments may adversely affect our competitive position and profitability.

39. *Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition. The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections. There are concerns that a tightening of monetary policy in emerging markets and some developed markets will lead to a moderation in global growth. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on our cost of funding, loan portfolio, business, future financial performance, and the trading price of the Equity Shares.

40. *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected. Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

41. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition. Further, under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

42. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

43. *We are subject to regulatory, economic, social, and political uncertainties and other factors beyond our control.*

We are incorporated in India and we conduct our corporate affairs and our business in India. Consequently, our business, operations, financial performance will be affected by interest rates, government policies, taxation, social and ethnic instability, and other political and economic developments affecting India.

44. *Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Assumption for Working Capital requirements

| Particulars | Assumptions made and justification |
|--|---|
| Current Assets | |
| Trade Receivables Holding period | It assumes a linear distribution of credit sales and a stable collection efficiency throughout the period to prevent seasonal spikes or one-off large orders from distorting the average. These assumptions standardize liquidity comparisons across different timeframes and ensure the metric accurately reflects the actual velocity of cash conversion from credit to capital. |
| Inventory Holding period | It assumes a consistent flow of inventory procurement and consumption throughout the period, without significant fluctuations due to seasonal demand, bulk purchases, or exceptional stocking decisions. These assumptions prevent abnormal inventory levels at any point in time from distorting the holding period. As a result, the metric provides a standardized measure of how efficiently inventory is converted into sales under normal operating conditions. |
| Short Term Loans and Advances and other current assets | It assumes that short-term loans, advances, and other current assets are utilized and recovered in a stable and systematic manner over the period. This assumption minimizes the impact of one-time advances, temporary deposits, or irregular recoveries that may otherwise skew the average balance. Accordingly, the metric reflects the normal duration for which funds remain tied up in operational current assets. |
| Current Liabilities | |
| Trade Payables | It assumes a uniform pattern of purchases and timely settlement of supplier dues in accordance with established credit terms throughout the period. This helps eliminate the influence of delayed payments, early settlements, or isolated high-value procurements on the average payable period. These assumptions ensure that the metric accurately represents the entity's normal credit utilization from suppliers. |
| Short term provisions and other current liabilities | It assumes that short-term provisions and other current liabilities accrue and are settled in a regular and predictable manner during the period. Exceptional provisions, sudden reversals, or infrequent settlements are thus averaged out to avoid distortion. This allows the metric to capture the routine liability cycle arising from ongoing business operations. |

The Allotment of such Rights Equity Shares will be made on a proportionate basis having due regard to the number of Rights Entitlement held by them as on Issue Closing Date and in consultation with the Designated Stock Exchange, as a part of the Issue and will not be a preferential allotment.

Our Company does not propose to make any allotment to any specific investor(s) in terms of the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018. Consequently, no such allotment shall be made at the discretion of the Board and the Issue shall not involve any allotment to specific investors nor any preferential allotment.

After taking into account Allotment to be made under (a) to (e) above, if there is any unsubscribed portion, the same shall be deemed to be 'unsubscribed'.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/ departments are responsible for granting approval for foreign investment.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The FDI Policy consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy will be valid until the DPIIT issues an updated circular. In terms of the FDI Policy and the FEMA NDI Rules, the foreign investment limit applicable to the sector in which our Company operates is 100% under the automatic route.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under FEMA NDI Rules will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that

(i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non- resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“**Restricted Investors**”), will require prior approval of the Government, as prescribed in the FDI Policy and the FEMA NDI Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA NDI Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India.

Please also note that pursuant to Circular no. 14 dated September 16, 2003 issued by RBI, Overseas Corporate Bodies (“**OCBs**”) have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for the issue as an incorporated non-resident must do so in accordance with the FDI Policy and FEMA NDI Rules. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants / Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Rights Equity Shares applied for do not exceed the applicable limits under laws or regulations.
